Meeting Minutes Transmittal

242-A EVAPORATOR
Unit Managers Meeting
Federal Building, Room 784B (Videoconference)
Richland, Washington

May 19, 1994
1:00 p.m. - 3:00 p.m.

The undersigned indicate by their signatures that these meeting minutes reflect the actual occurrences of the above dated Unit Managers Meeting.

Clifford E. Clark Date: 8/23/94
Clifford E. Clark, Unit Manager, RL

Not Present Date: _____
Daniel L. Duncan, RCRA Program Manager, EPA Region 10

Alex Stone Date: 14 July 1994
Alex Stone, Unit Manager, Washington State Department of Ecology

242-A Evaporator, WHC Concurrence

Brian H. Von Bargen Date: 7/14/94
Brian H. Von Bargen, Contractor Representative, WHC

Purpose: Discuss Permitting Process

Meeting Minutes are attached. The minutes are comprised of the following:

- Attachment 1 - Agenda
- Attachment 2 - Summary of Discussion and Commitments/Agreements
- Attachment 3 - Attendance List
- Attachment 4 - Action Items

Attachment 1

Unit Managers Meeting
200 AREA EFFLUENT TREATMENT FACILITY (ETF)
AND
LIQUID EFFLUENT RETENTION FACILITY (LERF)
AND
242-A EVAPORATOR
VIDEO CONFERENCE ROOMS
FEDERAL BUILDING/2750E/LACEY
RICHLAND, WASHINGTON

May 19, 1994
1:00 p.m. to 3 p.m.

Agenda

200 Area Effluent Treatment Facility

1. Status of schedule/design/construction (WHC)
2. Unit specific topics
 - Coordination of 216 disposal permit and delisting approval process
3. General discussion
4. Action items

Liquid Effluent Retention Facility

1. Status of permit application
2. Program status
 - NOD workshop summary
3. General discussion
4. Action items

242-A Evaporator

1. Status of permit application
2. Program status
3. General discussion
 - Ecology/E.C.O. communication protocol
4. Action items
5. Set next meeting date

242-A EVAPORATOR
Unit Managers Meeting
Federal Building, Room 784B (Videoconference)
Richland, Washington

May 19, 1994
1:00 p.m. - 3:00 p.m.

Summary of Discussion and Commitments/Agreements

1. STATUS OF PERMIT APPLICATION

- Mr. A. Stone (Ecology) announced that he would no longer be the unit manager for the 242-A Evaporator, but he will remain as the point of contact until a new unit manager is assigned. Mr. Stone noted that he had generated approximately 40 notice of deficiency (NOD) comments through his review of the Part B permit application. Mr. Stone stated that he recommended to management that the NODs be issued, and then wait until the three units (200 ETF, LERF & 242-A) are combined into one permit application before reviewing the NODs more closely. Mr. J. Coenenberg (WHC) stated he had prepared a draft schedule for merging the three permit applications, and noted that it was a hybrid of Mr. M. Jaraysi's (Ecology) proposal for permit revisions. RL/WHC will discuss the merging of the three permits and will get back to Ecology in the near future.

2. PROGRAM STATUS

Mr. B. Von Bargaen (WHC) provided an update on the program status. Tanks 2-AW, 6-AW and 3-AP are being processed, and the remaining tank waste is being pumped from tank 3-AP. The current plan is to achieve approximately an 87 percent waste volume reduction, and collect all the concentrated slurry into tank 6-AW until it is determined where the slurry will be transferred. Mr. Von Bargaen estimated the campaign should be completed by June 17, 1994.

Regarding required waste analysis plan (WAP) sampling, three of the five protocol sampling efforts have been completed. Mr. Stone inquired about the data results from the sampling efforts. Mr. Von Bargaen responded that all of the protocol samples were sent off-site except for the slurry, which went to the 222-S laboratory. The 222-S lab has begun identifying the ICPs, but has not started with the organics. Mr. Von Bargaen estimated it would take two months to receive the data reports from the off-site lab. Mr. Stone requested WHC transmit the sampling data reports as they become available.

3. GENERAL DISCUSSION

- **Ecology/E.C.O. Communication Protocol**

This topic was requested for discussion by Ecology. Mr. Stone stated that after being informed the WHC environmental compliance officer (ECO) should be the official contact between Ecology and 242-A, he had one contact with the ECO during his five-month period as the Ecology 242-A unit manager. Mr. B. Ross (WHC) noted that the ECO was currently in training for a month and was not available. Mr. Stone pointed out that through other contacts at 242-A, he had been provided very good data. Mr. Stone suggested WHC provide Ecology the status of 242-A on a weekly basis. RL/WHC and Ecology agreed that Ms. L. Garner (WHC) would be the point of contact until the ECO returns to operations.

4. ACTION ITEMS

Action item 6-29-93:1, RL/WHC will write a white paper identifying sampling and analysis capability problems associated with high radionuclide content and the specific chemical matrix of the Hanford mixed waste, with respect to SW-846 methods. A meeting among Ecology, EPA and RL/WHC will then be scheduled to discuss and resolve problems identified in the white paper.

Mr. C. Clark (RL) stated that this action item has become a facility-wide issue, and he suggested removing the action item from the 242-A meetings. Mr. Stone and Mr. Jaraysi concurred. This action item was closed.

Action item 2-15-94:1, WHC will provide Ecology (A. Stone) with a summary of the data from Campaign 2 sampling analyses taken August 1993.

Mr. Stone was provided the summary, closing this action item.

Action Item 2-15-94:2, WHC will set up a tour of the 242-Evaporator facility for Ecology (A. Stone).

A tour was provided last week for Mr. Stone, which closed this action item.

There was one new action item for WHC to provide Ecology the sampling data as it becomes available.

5. SET NEXT MEETING DATE

The next Unit Managers Meeting was scheduled for June 30, 1994.

1:00 p.m. - 3:00 p.m.

Action Items

Action Item

Description

6-29-93:1

RL/WHC will write a white paper identifying sampling and analysis capability problems associated with high radionuclide content and the specific chemical matrix of the Hanford mixed waste, with respect to SW-846 methods. A meeting among Ecology, EPA and RL/WHC will then be scheduled to discuss and resolve problems identified in the white paper.

Action: RL/WHC

CLOSED

2-15-94:1

WHC will provide Ecology (A. Stone) with a summary of the data from Campaign 2 sampling analyses taken August 1993.
ACTION: M. Bowman (WHC)

CLOSED

2-15-94:2

WHC will set up a tour of the 242-A Evaporator facility for Ecology (A. Stone).
ACTION: B. Von Bargaen

CLOSED

5-19-94:1

WHC will provide Ecology (A. Stone) the waste analysis plan sampling data reports as they become available.
ACTION: WHC

OPEN
